## ACCFIN COMPANY PROFILE

Since its inception in the mid 80's Accfin has always been strong in producing systems that interpret and calculate tax. Being the market leading supplier of systems to the accounting profession it was a natural extension to produce accounting and payroll systems that caters for the needs of all small and medium sized business. Pad Payroll is the result of many years of work by Accfin in the payroll market.

**Accfin Software** commenced operations in 1984 as a custom solutions house having grown from within an accounting firm to become one of the largest independent software developers in South Africa. With products ranging from Accounting and Payroll for all business and Professional Series for the accounting profession Accfin truly has a wide range of products that caters for the whole business spectrum.

Accfin strives to offer its clients a total solution, including software consulting and the best affordable after sales support. Accfin's Commercial Range is the market leading product in its niche category used by many major firms in South Africa.
